

# **PACE EE Class Lab Report**

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## **Title: Put Lab Title Here**

### ***Purpose***

Put a description of what the lab is to show, what is being built or what principle is being illustrated here.

### ***Parts List***

List the parts used in the lab here.

### ***Configuration***

The circuit diagram goes here. Make sure to leave enough room to draw the circuit.

### ***Procedure***

Describe what you did in the lab. Do not describe the steps in building the circuit, but rather what you did after the circuit was built and what happened. Describe any measurements you may have made. Describe how the circuit worked differently when you changed components or adjusted settings.

### ***Analysis and Conclusion***

Describe what you've learned from the lab, what principles you have discovered, what observations you have made. Include any calculations or analysis you did.
